

IMPROVE BRAIN FUNCTION

Your Potential is Limitless. It's TIME TO IMPROVE BRAIN FUNCTION. Research has shown that we now can improve your brain's function up to 20% through Neuroplasticity!

Acupuncture

A brain has a variety of functions. Recent research has shown that specific acupuncture care can improve the functional of our Limbic System.

Limbic System

Hippocampus Function

- EARLY MEMORY
- FORMING LONG TERM MEMORY
- Spatial Navigation.

Amygdala Function

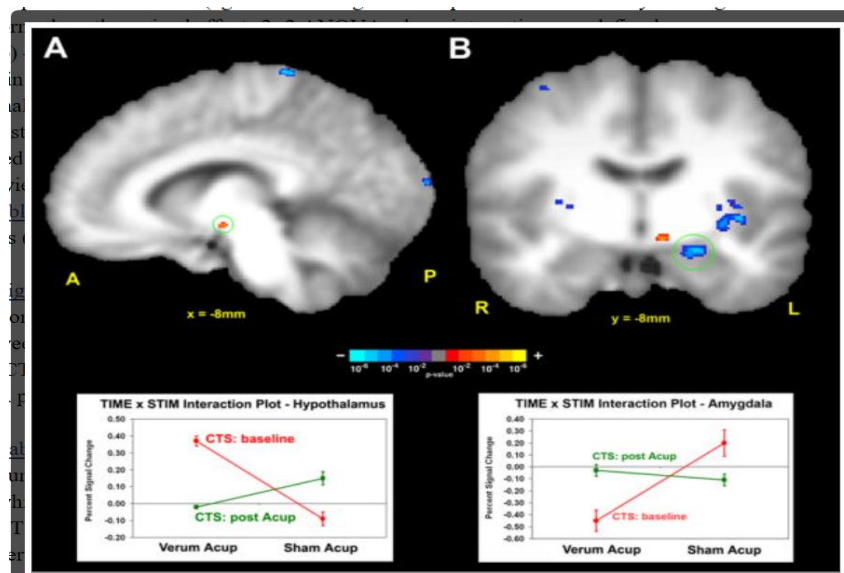

- LEARNING
- Fight or Flight Response
- Reward Processing

fMRI Research

Functional magnetic resonance imaging or functional MRI is a functional neuroimaging procedure using MRI technology that measures brain activity by detecting changes associated with blood flow. This technique relies on the fact that cerebral blood flow and neuronal activation are coupled. When an area of the brain is in use, blood flow to that region also increases.
